## How to get help

While we have gone to great lengths to ensure that AmaRadio is as simple to use as possible, we have also provided several forms of help.

We recommend that you start by reading the [Getting Started](#) tutorial, which covers the basic functionality and will get you up and running as quickly as possible.

## **Staying up to date**

This program will evolve over time as we add new features, improve existing features, and discover and fix problems. For that reason we highly recommend that you ensure that you are using the latest version of the software.

The user hereby indemnifies Heldersoft CC and its employees against all claims, loss, liability, damage or expense which the user may suffer or sustain as a result of, or which may be attributed to the use of or inability to use the software or the download of the software from another site/source as specified herein.

Thank you for your understanding and cooperation.

## **How to purchase this software**

AmaRadio is free software. You cannot purchase it.

## Version History

### **Version 2.20 (4 Aug 2010)**

- FEATURE: Major improvements to the streaming engine.
- FEATURE: Now contains updated links to areas (docs, report broken station etc) in our new website.
- FEATURE: Several stations that were not working correctly before are now fixed.

### **Version 2.09 (5 May 2010)**

- IMPROVEMENT: We have rebuilt the station lookup logic. This is an internal change which you won't "see", but which will result in fewer instances of stations not being "found" on the internet.
